## Tech Know Systems, Inc. Announces JetPCL version 9.5 available for use with **DynamicPaper**

### JetPCL Integrated into DynamicPaper from Dynamic Concepts!

JetPCL is now available for integrated use with Dynamic Concepts' DynamicPaper product. Using JetPCL with the DynamicPaper product allows PCL print files to be easily emailed as PDF attachments. PCL files are Hewlett-Packard LaserJet print files. Using JetPCL these print files can be converted into Adobe Acrobat PDF image files. All of this happens easily when you purchase **JetPCL for DynamicPaper** because Dynamic Concepts has integrated JetPCL into their new DynamicPaper product. Purchasing a run time license for JetPCL will enable the integrated JetPCL module.

### Purchasing a 'JetPCL for DynamicPaper' Runtime License

**JetPCL for DynamicPaper** runtime licenses are available directly from Tech Know Systems. Pricing is based on the number of DynamicPaper servers and concurrent users as follows:

1 User	\$1200	16 Users	\$2280	128 Users	\$7400
2 Users	\$1300	24 Users	\$2800	192 Users	\$9640
4 Users	\$1500	32 Users	\$3240	256 Users	\$11,240
6 Users	\$1600	48 Users	\$4120	384 Users	\$14,400
8 Users	\$1720	64 Users	\$4840	512 Users	\$16,360
12 Users	\$2020	96 Users	\$6280	768 Users	\$20,200

Platforms supported are: Windows, Linux x86, AIX, HP/UX, SUN Solaris, SCO and Unixware.

Pricing is based on the number of DynamicPaper Users but customers can purchase a JetPCL license for fewer concurrent users, as long as the number is no more than 3 pricing categories below their actual number of DynamicPaper Users. For example, if you have an 8 User DynamicPaper license, you can purchase a 2, 4, 6, or 8 User JetPCL license. If you have 16 Users, you can purchase a 6, 8, 12 or 16 User JetPCL license. If 96, then 32, 48, 64 or 96, etc.

Subscription pricing that includes JetPCL maintenance releases and support is also available. Customers with 12 or less users can pay \$1,000 annually for a subscription. Customers with 16 to 96 users can pay one half the price (listed above) annually and customers with 128 or more users can pay 0.4 of the price annually for a subscription. A 3 year commitment is required.

## 'JetPCL for DynamicPaper' License Request Form

To purchase a **JetPCL for DynamicPaper** runtime license, just fill in the following information and fax it to the number below. Or just email the information to [Sales@JetPcl.com](mailto:Sales@JetPcl.com) and we will contact you. ## Installing a 'JetPCL for DynamicPaper' Runtime License

Once the DynamicPaper developer has your application using DynamicPaper and the JetPCL Demonstration software as needed, you are ready for a **JetPCL for DynamicPaper** runtime licenses to remove the JetPCL Demonstration watermarks and page limitations. Installation is easily accomplished by either an in-house IT person familiar with the Unix or Windows command prompt or by a qualified Dynamic Concepts developer or consultant. Installation involves these steps:

- receiving a JetPCL activation key from Tech Know Systems (via email)
- receiving a JetPCL replacement executable (via email)

Easy to follow, step by step, instructions will explain how to update the JetPCL executable and install the JetPCL activation key to enable the already integrated JetPCL software.
